0 - Not Performed	40-50% Performed but improvement needed	80%– Above average
10-20% Barely performed	60%- Good Performance	90% – High Standard
30%- Partially Performed	70% – Performed well	100% – Exceptional

LOCATION	All odours located within the allotted time. Area correctly called clear (where applicable). Whole area has been searched by the team. Whole area searched consistently.	Odours not found. Team focuses on one particular area more than others (where no odour present). Team does not search the entire area. Area called clear, missing hides (where applicable).
INDICATION	Dog gives a clear, reliable indication. If required, handler is able to point to the odour location. Indication is passive and appropriate for the type of odour and location.	Dog removes the odour/shell. Dog has a destructive indication behaviour. Handler has to cue the indication behaviour. Dog uses targeting rather than indicating.
DOG SCORE	Dog listens to the handler and searches the area or item as tasked. Dog instantly recognises their odour. Dog stays in odour/works odour in. Dog is consistent in search behaviour.	Handler attempts to direct the dog but the dog ignores the handler. Dog becomes distracted and stops searching. Dog searches over their odour multiple times without pinpointing or indicating. Dog indicates on a distraction odour or false indicates. Handler has to ask the dog to return to the odour (eg "show me").
HANDLER SCORE	The handler tasks the dog according to the type of search area and the style of the search. If using a line, the handler uses this appropriately and well for the search. The handler recognises when the dog was on odour. Handler reads dog well and responds accordingly.	Incorrect calls will result in deduction of points but the search continues Handler gives the dog no guidance for the search. Handler cannot identify their dog is in odour. Handler pulls their dog away from odour location when dog is clearly working to find the source.
TEAMWORK	The team works together. The dog is happy and enjoying the search? Team demonstrates a synergy and flow. Dog and handler are equally matched in their performance. Team worked through disadvantageous circumstances (eg adverse weather, external distractions). Rewards are actually rewarding to the dog.	Harsh handling. Unnecessarily physically manipulating the dog (eg reasons not aiding the search such as picking up for high areas/helping up steps). Dog shows fear/anxiety but this is ignored by handler. Dog is disengaged from handler.
